THE SECRET OF BRYN ESTYN

The making of a modern witch hunt

Richard Webster

SHORTLISTED FOR THE ORWELL PRIZE

In 1991 journalists on broadsheet newspapers began to publish stories claiming that Bryn Estyn, a home for adolescent boys on the outskirts of Wrexham, lay at the centre of a network of evil – a paedophile ring whose members included a senior North Wales police officer. A massive investigation was launched which, over the next ten years, spread to care homes throughout Britain. Thousands were accused, hundreds arrested, and the prisons began to fill up with convicted care workers. Had we at last faced up to a horrifying reality? Or was there another, even more disturbing story that remained to be uncovered?

'This is an extraordinary book ... gripping and coherent ... a major achievement ... Webster has admirably succeeded in what the police and two [inquiries] failed to do: discover what really happened.'

JEAN LA FONTAINE, *Evening Standard*

'In his massively researched, compelling book Richard Webster demolishes the belief that there was a vast conspiracy of sexual corruption in Welsh care homes ...'

LEO MCKINSTRY, *Spectator*

'It's a story that has everything: personal animus, fantasy, intrigue, alleged Masonic conspiracy, bizarre sex acts and courtroom drama ... This is brilliant stuff. It is fair, measured and brave. This book should be read by ... anyone interested in the human condition.'

MARK SMITH, *Child Abuse Review*

Author

Richard Webster is the author of *Why Freud Was Wrong*, chosen as Book of the Year by Sebastian Faulks, David Lodge, Penelope Mortimer and Richard Hoggart. He has been interviewed on the subject of false allegations by John Humphrys, Jeremy Paxman and Jenni Murray. He lives in Oxford.

Sampler edition

Copies of a 32-page sampler edition containing the introduction and the postscript, 'Journalism, Jersey and the idea of evil', will be sent to selected UK broadcasters, journalists and commentators during January 2009.
